

## Drum Clamp T415-2

with independent sideshift - for  
cylindrical steel drums - 2 hydraulic  
functions

### Specification:

The KAUP Drum Clamp T415-2 can transport two (one in front of the other) or four drums (pre and side by side) safely and without palettes. Therefore the clamp arms are serially vulcanised with rubber.

# Drum Clamp T415-2

## Technical specifications

Model													
1,5T415-2	2-4	1.250	630	±100	370-1.550	970	1.105	195	2	133	255	266	310

## Qualities:

- Low lost load - good residual capacity
- Good visibility conditions
- Stable construction
- Independent sideshift serially

- The arms are coated with Remagrip (see coatings in the pricelist).
- Fitted with pressure reduction and manometer gauge.C1160
- Available with arms for plastic drums upon request.
- This version is for cylindric drums with diameter of 600 mm. For other diameters on request.
- Also available without sideshift, model T405-2
- Load Backrest see model T179.
