

## Fork Positioner T466ZH

without sideshift - 1 hydraulic function

### Specification:

KAUP, as leading manufacturer of attachments, also has a comprehensive range of attachments for Reach Trucks. The Fork Positioner type T466ZH is one of them.

Individual details regarding wheel arms and ground clearance as well as the possible width of the attachment and other technical details make Reach Trucks very complex. Therefore it is advisable to contact our specialists directly for an individual consultation regarding our attachments and accessories for Reach Trucks.

Attachment is serially designed without sideshift. It can be fitted with separate or valveblock sidesift upon request.

Attachment is operated hydraulically, i.e. supplied with oil from the forklift truck's hydraulic system. Truck requires one additional hydraulic function.

Attachment is available for operation in explosion hazardous areas.

# Fork Positioner T466ZH
