

Height adjustable fork T158

for mounting on ISO fork carriage - 1
hydraulic function

Specification:

The height adjustable fork T158 of KAUP is hung up directly in the ISO carriage and serves as a level compensator. If two height adjustable forks are used at the same time, an additional heave occurs. Height adjustable forks are used together with a hook-on fork.

Attachment is operated hydraulically, i.e. supplied with oil from the forklift truck's hydraulic system. Truck requires one additional hydraulic function.

Height adjustable fork T158

Technical specifications

Model														
2,5T158	1.250	500	205	120	50	1.200	100	680	2	73	156	162	105	235
4,5T158	2.500	500	235	150	60	1.200	100	800	3	103	273	180	177	255
