

Push-Pull T143S

1 hydraulic function

Specification:

Mounted directly on to the fork carriage the KAUP Push-Pull T143S is the right choice when slip-sheets are regularly used as transport mode.

Like all other KAUP Push-Pulls, this range also has a large surfaced carrying plate for transportation of palletless loads.

Attachment is operated hydraulically, i.e. supplied with oil from the forklift truck's hydraulic system. Truck requires one additional hydraulic function.

Attachment is serially designed without sideshift. It can be fitted with separate or valveblock sidesift upon request.

Push-Pull T143S
