

Rotating Roll Arms T106AH180

slip-on version - hydraulically tiltable
up to 180°

Specification:

Cylindrical loads can be picked up and turned by 180° and completely emptied with KAUP Rotating Roll Arms T106AH 180°.

Attachment is hydraulically tiltable by 180°.

Attachment is operated hydraulically, i.e. supplied with oil from the forklift truck's hydraulic system. Truck requires one additional hydraulic function.

Attachment is available for operation in explosion hazardous areas.

Rotating Roll Arms T106AH180

Technical specifications

Model							
2T106AH180	1	560-630	400	250	180	800	120
2T106A-2H180	2	560-630	400	250	180	800	148
4T106A-2H180	2	560-630	400	250	180	800	158

Qualities:

- Simple assembly
- Solid construction
- Other drum diameters available
- Hydraulically turnable by 180° Adaption for drum handling possible

- 1) Arm-overhang per side.
- 2) Minimum distance to fork shank
- Rotating roll arms for other diameters available upon request.
- special designs available for transportation of plastic drums (upon request)
