

Rotating Roll Clamp T458 S

Short arm fixed - 2 hydraulic functions

Specification:

The view-optimised designed KAUP Rotating Roll Clamp T458S is well suited especially for the careful admission and the transport of narrow rolls from a width of 150 mm.

Attachment rotates hydraulically by 360° endless in both directions.

Attachment is operated hydraulically, i.e. supplied with oil from the forklift truck's hydraulic system. Truck requires two additional hydraulic functions.

Attachment is serially designed without sideshift. It can be fitted with separate or valveblock sidesift upon request.

Attachment can be fitted with different types of contact pad surfaces specifically suited to the application.

Rotating Roll Clamp T458 S
