

Foldable forks T180KH

for mounting on ISO fork carriage -
hydraulically foldable - 1 hydraulic
function

Specification:

The Foldable Forks T180KH of KAUP are used where shortage of space (for example lift use) or internal transport makes it sometimes necessary to fold on the forks. For it the forks are hung up directly in the fork carriage and are opened hydraulically.

Moreover, the foldable forks can also be combined with other attachments of KAUP, for example bale clamps.

Attachment is operated hydraulically, i.e. supplied with oil from the forklift truck's hydraulic system. Truck requires one additional hydraulic function.

Attachment is hydraulically tiltable by 90°

Foldable forks T180KH

Technical specifications

Model										
1T180KH	1.500	500	120	40	1.000	535	2	150	284	80
2T180KH	2.500	500	140	50	1.000	620	2	150	300	100
3T180KH	3.500	500	150	50	1.000	770	3	185	303	132

Qualities:

- Robust construction
- An easy assembly
- Very good visibility conditions

- Higher capacities available upon request.
